Subject:	2014 SLSNSW State Championships Powercraft Requirements

To ensure the safety of all competitors competing in the 2014 SLSNSW State Championships, a Powercraft roster has been implemented and introduced from season 2012/13. For the State Championships this season (2013/14), clubs have been identified based on entries from the previous year's entries. Not every club will be required to supply and IRB. This requirement will be advised when the roster has been completed.

Clubs will be allocated a shift/timeslot in which they are required to fulfill their requirements. A detailed roster will be released prior to the Championships outlining the specific times and days of competition that each club is rostered.

By advising the clubs that will be rostered for the Championships, it is hoped that clubs can begin training members and preparing equipment to ensure that their requirements are met.

Clubs that fail to meet their requirements or attend rostered shifts at the Championships will be suspended from competition until such a time that requirements are met.

Powercraft operators and crewpersons must fulfil the following requirements:

- IRB Driver: Be a current financial SLS member and proficient IRB Driver.
- IRB Crewperson: Be a current financial SLS member, proficient IRB Crewperson and as a minimum hold a Junior Officials accreditation to act as a judge in boat.
- RWC: Be a financial SLS member and proficient RWC operator.
- Both IRB and RWC: Be experienced in ALL levels of surf conditions and competent to deal in all surf conditions.

All IRB's supplied by clubs must be registered with SLSNSW, have passed the 2013/14 Gear and Equipment Inspection process and be entered on SurfGuard. To ensure that equipment is in a safe and reliable working order for use at the Championships, clubs will also be required to complete a Pre-Event IRB Inspection Form in the presence of the SLSNSW Powercraft Inspection Officer for inspection prior to the start of the carnival.

If equipment, IRB or motor, is not in sound operational condition and considered safe for operations, the equipment will not be accepted and the club may be forced to make other arrangements to be eligible to compete at the carnival.
