Subject:	Beach Wheel Chair Maintenance

Now is the time for those clubs with beach wheel chairs to carry out your pre-season safety check. As part of your equipment inspection each year it is recommended that the clubs beach wheel chair be serviced. During this service it is suggested that the following areas are checked – eg *Chair manual available, any moving parts, straps and belts, tears in any material, chair access and availability and tyres.*

If you need any advice on service providers who can assist in this area, please contact your local supplier or Naomi Stevenson at Surf Life Saving NSW, nstevenson@surflifesaving.com.au
