Subject: SLSNSW review of 2020 representative team athlete levy

Dear Branch and Clubs Surf Sports Representatives,

SLSNSW issued a circular on 1 October regarding the NSW State, Country and Youth Pathway Cup teams nomination process and as part of that circular an indicative athlete levy was advised. There has been various feedback to the SLSNSW office on the levy in that it was a significantly higher amount than advised in previous years for these teams.

We have reviewed the budgets for these teams and based on the anticipated costs, I can now confirm that the levy has been revised down to an indicative level of approximately \$650 per athlete. This is an indicative level across the three team groups based on their competition all occurring on the Sunshine Coast.

When teams are selected and final costings are available, we will advise the final levy required from team members.

I trust this responds to the various calls and emails we have received over the past fortnight. Please contact the Sport team at SLSNSW should you have any further questions about the levy or any aspect of the team selection process.

Regards,

Phil Ayres

Chief Operating Officer | Surf Life Saving NSW
