

TAF Pre-season Module

Troubleshooting Guide

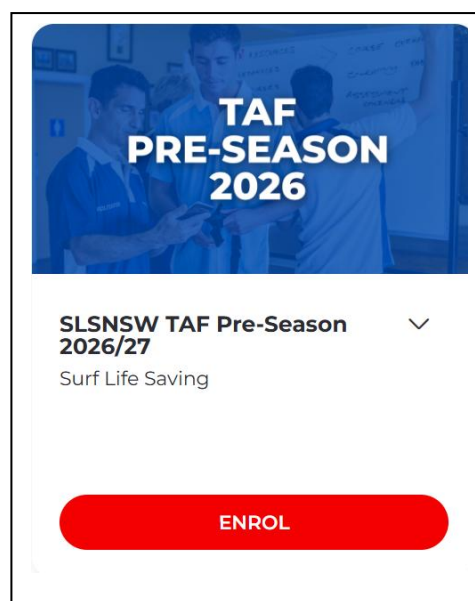

Accessing the eLearning platform

After being redirected to the eLearning platform from the SLS Hub, please ensure you are signed in as a learner rather than as an administrator. You can toggle between your learner and administrator alias' at the top right of the screen.

Finding the eLearning

Select 'Training Library' in the left-hand menu and then find the **SLSNSW – TAF Professional Development** folder. The module you are looking for is called **TAF PRE-SEASON 2026**. Once you have started the module, you will find it in "My Training" if you need to return to it.

Need further assistance?

Please contact the SLSA IT Help Desk on 1300 724 006.
