

TAF Pre-season Module

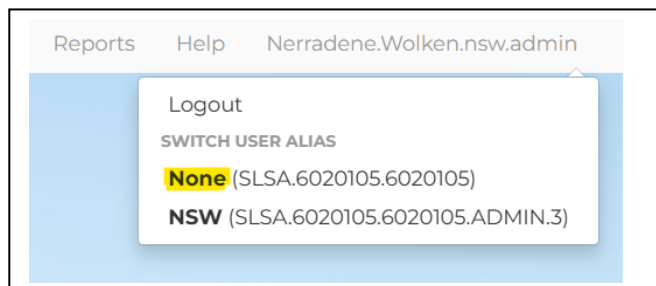

Troubleshooting Guide

Logging in to the SLS Hub

The SLS Members Area has recently been replaced by the SLS Hub. If you are logging in to the SLS Hub for the first time, you'll be asked to update your password. This will need to be completed before you can access the eLearning.

Accessing the eLearning platform

After being redirected to the eLearning platform from the SLS Hub, please ensure you are signed in as a learner rather than as an administrator. You can toggle between your learner and administrator alias' at the top right of the screen.

Finding the eLearning

Select 'Training Library' in the left-hand menu and then find the **SLNSW – TAF Professional Development** folder. The module you are looking for is called TAF PRE-SEASON 2025.
