From the club's perspective

Mason Kemeny, Chief Training Officer

- The Assessing App is useful for the assessors, trainers were still navigating the purpose of each functionality.
- From a CTO perspective, the manual entry for each session can be time consuming. It would be great if the clubs had the opportunity to create their own templates.
- Much simpler process than the traditional Form 14 however it would be ideal to remove the need to provide the Assessment Portfolios, perhaps these could be a tick box form in the app.
- Would love to see the app being utilised for ART course admin as well.

KEY LEARNINGS

What did we learn from this pilot testing?

- Tailor our learning resources and promotion of the app's new features and functionalities for Assessors vs Trainers.
- Review and refine the design and modification to pre-set course templates available.
- An external review of the Assessment Portfolios with the aim to review requirements as part of future enhancements.
