

Memorandum

То:	2024 Sharkskin NSW IRB Series Team Managers	
From:	Vicki Cuthbert – Sports Officer	
Date:	06 May 2024	
Pages:	4	
Subject:	Scrutineering Process for the 2024 Sharkskin NSW IRB Premiership Round 1	

The below information provides details on the scrutineering process for the 2024 Sharkskin NSW IRB Premiership Round 1. Please be aware that the information outlined in this Memorandum supersedes earlier information detailed in the 2024 Sharkskin NSW IRB Series Entry Circular.

'Full technical scrutineering' will be conducted at the 2024 Sharkskin NSW IRB Championships on **Friday 10 May 2024 at Collaroy SLSC**.

Due to the demand of peak periods, scrutineering timeslots have been allocated based on distance to travel. The IRB scrutineering timetable can be seen below, please note these <u>times are not flexible and cannot be changed</u>.

However, the scrutineers will inspect your gear and equipment earlier if you are available to come to scrutineering prior to your allocated time slot.

Timeslot	Clubs
9:00am	Mona Vale SLSC, Avalon Beach SLSC
10:00am	South Maroubra SLSC, Queenscliff SLSC
11:00am	Ocean Beach SLSC, Newport SLSC, North Avoca SLSC
12:00pm	Kiama Downs SLSC, Bondi SLSC
1:00 pm	Bungan Beach SLSC, Fingal Beach SLSC, Wanda SLSC
2:00pm	Maroubra SLSC, Helensburgh Stanwell Park SLSC, Thirroul SLSC
3:00pm	Caves Beach SLSC, Nobbys (NSW) SLSC, North Cronulla SLSC

Clubs need to be ready at least 30 minutes before their allocated timeslot with completed paperwork submitted to the registration desk and equipment ready for inspection. There will be no copy/print facilities available onsite. The designated drop-off/pick up location of equipment to be scrutineered will be published in the Final Event Information.

Please ensure that technically competent representatives are present to disassemble and reassemble gear and equipment for scrutineering.

Please also note the following:

• Power or electricity may not be available at scrutineering area. Clubs must make their own arrangements

- Gates will close at 3:00 pm on Friday and scrutineering will conclude at 4pm and the area must be vacated.
- No late arrivals will be accepted on Friday, clubs are to ensure they are ready 30 minutes prior to their above allocated timeslot.
- There will be **no formal scrutineering on Saturday**. Clubs that are unable to make scrutineering on Friday will not be able to race.
- Scrutineering will conclude at 4pm sharp.
- Effectively, no unapproved modifications are permitted to gear and equipment gear and equipment is to
 be as it was "out of the box" as per <u>Gear and Equipment Regulations 2022</u>. What this means for example, is
 that there are to be no enhancements or alterations to items such as:
 - Ignition System, Flywheel weight and associated components.
 - o Manufacturer's Motor Seals and associated sealing wire.
 - Carburettor and Jetting.
 - Carburettor Restrictor Plate and Air Box (see below).
 - Water Pump and Impeller.
 - o Gear Box Ratio.
 - o Exhaust System.
 - Engine Pan and Cowling.

Throttle Recoil Mechanism & Tension Toggle

For competition use from season 2023/24, all TOHATSU and MERCURY 25hp motors will need to have the Throttle Recoil Mechanism installed and the Throttle Tension Toggle removed, in compliance with <u>SLSA Circular 15 23-24 IRB</u> *Motor Safety*

Scrutineering Details

All crews IRB equipment, (including IRB patient helmets) are to be presented for scrutineering (*Note: It is the responsibility of each Club to ensure gear and equipment meets the manufactures and/or SLSA specifications as set out in the current <u>Surf Sport IRB Competition Gear and Equipment Regulations 2022</u>).*

Any clubs found to be using equipment that does not meet manufacturers or SLSA specification as set out in the current SLSA Surf Sport IRB Competition - Gear and Equipment Regulations, could be excluded from the event and may face disciplinary action.

At the time of Pre-Competition Scrutineering, should any gear or equipment as presented not meet technical specifications, at the sole discretion of either the Referee or Head Scrutineer, the Club may be referred to the Competition Disciplinary Committee.

Further, gear and equipment that does not meet technical specifications may be impounded for the duration of the event.

In Competition Scrutineering (Random Scrutineering)

Clubs are made aware that there will be ongoing random scrutineering and equipment reviews throughout and at the conclusion of each day of competition.

If a part or item of equipment is found to be outside of specifications or to have not been scrutineered within competition, the Club may be referred to the Competition Disciplinary Committee.

Post Competition Scrutineering

Clubs are made aware that there will be random, Full Technical Scrutineering, at the end of each day of competition (Saturday and Sunday).

If a part or item of equipment is found to be outside of specifications or to have not been scrutineered within competition, the Club may be referred to the Competition Disciplinary Committee.

Rescue Tubes

A pool of rescue tubes will be supplied by SLSNSW for Tube Rescue events at the State Championships.

It is the responsibility of the competitors to ensure the respective rescue tube meets the requirements outlined in the 'Lifesaving Gear and Equipment Specifications'. This can be downloaded from the Members Portal – Library – Governance – Specifications – SLSA. Please note: Rescue Tubes will be subject to pre-event scrutineering.

In readiness for inspections the following should be done prior to scrutineering:

- 1. Hulls are to be inflated with floor boards out.
- 2. Motors air boxes are to be removed to enable inspection of carburettors and restrictor plates.
- 3. Carburettors and fuel float removed.
- 4. Pull cord mechanism removed for inspection of the fly wheels
- **5.** All motors are fitted with SLSA seals and that the sealing sheets are laminated and can be attached to each motor individually.
- **6.** Any components that have been replaced on any boat or motor are GENUINE O.E.M. or SLSA APPROVED REPLACEMENT PARTS.
- 7. All fuel line fittings are covered and no sharp edges are evident.
- **8.** All propellers are clearly engraved and the letters / numerals are legible when the propellers are in situ on the motor.
- **9.** Purchase orders and receipts for any components manufactured by Mid Coast Marine (M.C.M) will need to be available to verify their date of purchase. (Any components sold after January 2015 are not acceptable for use in these championships.)
- **10.** The loops in the life lines on Milpro, Thundercat, and Achilles hulls are as they were produced and have not been altered.
- **11.** The crewperson bow rope reaches the crewperson's handle and is approximately 1200 mm long with 4 figure 8 knots in situ.
- **12.** Fuel used must be 98 octane containing NO ETHANOL, available to the public from any BP/Shell/Caltex/Mobil service station.
- 13. Bring all scrutineering forms. Scrutineering documents are available online as per below links:
 - Hull Compliance Check Record
 - Outboard Motor and Propeller Guard Compliance Check Record
 - Propeller Safety and Compliance Check Record
 - Fuel Safety and Compliance Check Record
 - Please Note: Scrutineering forms must have all details written down on the forms prior to entering the scrutineering area. If the details are not entered the Club will be directed to the end of the line.

Other Notes:

- All equipment must be the Manufactures Original or Genuine Replacement part, or a part or modification that is approved and listed in the latest edition of the I.R.B. Gear and Equipment Regulations.
- Starter recoil ropes must be from a currently approved Mercury/Tohatsu/Yamaha 25 HP outboard engine.
- Engine Carburettor Air boxes must be the standard part with no enlarged or addition holes.
- Outboard motor swivel bracket bushes must not display any excessive movement.
- Outboard motor steering bracket to steering shaft joint must not display any movement.
- Engine carburettor restrictor plates must not be altered and are to be installed correctly.

- All propellers must be engraved so the club identification number can be read when the propeller is installed on the outboard motor.
- Letters / Numerals should be in the exhaust hub flange and between 6mm and 8mm tall.

If you have any further questions regarding scrutineering, please do not hesitate to contact the Surf Sports Team on (02) 9471 8098 or email surfsports@surflifesaving.com.au
