SAFETY

All Clubs, States & Territories, Competitors and Officials are referred to the introduction of the 37th edition of the SLSA Surf Sports Manual. Paragraph (d) states:

"Surf lifesaving can be inherently dangerous. Serious accidents can and often do happen which may result in property damage, physical injury and even death. All members are assumed to have voluntarily read and understood this warning and accept and assume the inherent risks in surf lifesaving."

All Clubs, States & Territories, Competitors and Officials are also referred to the General Rules contained in the SLSA IRB Competition Rules Section 3.3 and in particular to the warning contained in SSM Section 3.3.2.1 that states:

"WARNING: *IRB competition can be inherently dangerous. IRB competition participants acknowledge that they are exposed to certain risks during IRB competition including but not limited to leg, spinal and neck injuries, physical exertion, contact with the IRB, temperature, weather and water conditions and even drowning. IRB competition participants acknowledge that accidents can and often do happen which may result in IRB competition participants being injured or even killed. All members through their participation in IRB events agree with, acknowledge and understand this warning and accept and assume the inherent risks in IRB competition."*

An Australian & Interstate IRB Championships 2025 Safety Operations Manual, including a Competition Contingency Plan has been developed for use by the IRBCCC, Officials and relevant personnel. The Championship Referee and SEMC will give a Safety Briefing to Officials and Team Managers before commencement of competition and during the event as required.

Water safety as part of the competition, is ultimately the responsibility of the IRBCCC. In accordance with Section 1 - Competition Safety, of the current edition of the SLSA [Surf Sports Manual](#), any subsequent amending bulletins, and this circular, the IRBCCC is responsible to determine whether to postpone or cancel any or all events or relocate the Championships to an alternate venue based on the advice of the SEMC, Championship Referee and Officials.

In response to ongoing reviews of carnival safety measures, additional Risk Assessors have been appointed to assist the SEMC to provide ongoing assessment of conditions and safety across the carnival area. They will create an effective communications channel to the SEMC and IRBCCC. Those Officials may seek advice from competitors and team representatives to ensure an informed opinion is provided and can be acted upon where appropriate.

A debrief with Officials will be conducted by the Championship Referee at the end of each day. Competitor/Team Manager Briefings will be called when required by the Championship Referee. These briefings will be conducted by the Championship Referee and/or Deputy Referee.

Safety and Technical Infringements

Attention is drawn to SSM Section 3.3.2.3 and relevant paragraphs:

- a) A strong emphasis will be placed on safe driving, crewing and patient safety practices. All competitors must complete each event in a safe and controlled speed and manner or will face immediate disqualification from the event, and/or issue of a safety infringement and consideration for further penalties.
- b) A safety infringement shall be issued to any competitor deemed to have committed an unsafe

practice. This will result in immediate disqualification of the competitor and their entire team (i.e., crew and patient/s) from the event in which the infringement occurred.

- c) If a competitor receives more than one safety infringement in any one competition they shall be disqualified from the entire competition.

SCRUTINEERING

Full technical scrutineering will be conducted for all clubs on **Wednesday 16th July ONLY**. All scrutineering to be done in accordance with IRB Equipment Requirements, Scrutineering and Compliance. Clubs are made aware that there will be ongoing random scrutineering and equipment reviews throughout the competition days and may be called again for full technical scrutineering at the end of each day of competition.

Note: It is the responsibility of each Club to ensure gear and equipment meets the manufacturers and/or SLSA specifications as set out in the current edition SLSA Bulletin Surf Sport IRB Competition - Gear and Equipment Regulations (or as amended).

Any Club found to be using equipment that does not meet manufacturers or SLSA Bulletin Surf Sport IRB Competition - Gear and Equipment Regulations, shall be referred to the Championship Referee for adjudication. Any equipment that does not meet these regulations will be excluded from the Championships and may face further disciplinary action.

If the failed equipment item / part is subsequently found to be used in Competition, the Club will be immediately disqualified from the Championships, where Coaches, Team Managers and athletes may face further disciplinary action. No competition points will accrue.

All IRBs, motors, and accessories (including fuel) must be scrutineered prior to competition and must have passed the safety and compliance checks conducted by the Scrutineers or as determined by Surf Life Saving Australia.

Scrutineering will be conducted in accordance with IRB Equipment Requirements, Scrutineering and Compliance. Technical scrutineering (including fuel) may also take place randomly before competition, during competition or at the conclusion of the championships.

Any equipment (including fuel) that has not passed the scrutineering requirements shall be referred to the Championship Referee for adjudication.
